

Hi Year 6!

How are you all doing? I really miss seeing your smiling faces and chatting to you all! I know you'll be getting a letter from your Class teachers, but I just wanted to throw a little one in each week as well, just so that you don't forget me!

I've been spending my time at home with my children (mostly getting on their nerves), in my garden (something I am incredibly grateful for) and walking/running with my dog each day for my exercise. I'm not sure if I've told you much about my dog, but he is an 18-month old Cocker Spaniel called Monty. He is totally daft, funny, lovely and naughty, and I am completely and utterly smitten. This is a photo I took of him a few months ago...and yes, that moustache is real...well sort of...it's mud!

In my letters each week I'll try and include a photo of him and something I've seen on my dog walk. The other day I took him into the woods and we saw these logs, they really made me smile!

OK, so, rather than me waffling on, I'm also supposed to giving you some ideas of things to do each week – I'll keep mine brief as I know you'll get plenty from your other fabulous teachers! Please see below for a few things to do.

I hope you all have a fabulous week and I look forward to writing to you again next week. Take care, keep safe and keep being you. ☺

Mrs Humphrey xx

Tasks to complete (if you want to!)

- Write a letter back to me. I'd love to hear from you!
- Fun fact:

The Pavlova, as dessert named after a Russian ballet dancer called Anna Pavlova, was first made in the 1920's.

This is one of my favourite puddings...Can you find out a fun fact about your favourite pudding?

- Logic Puzzle:

This is the most unusual paragraph. How quickly can you find out what's so unusual about it? It looks so ordinary you'd think nothing was wrong with it – and in fact, nothing is wrong with it. It is unusual though. Why? Study it, think about it, and you'll soon find out. You can do it without coaching, don't worry! Just stay calm and it'll dawn on you. Good luck.

Can you see why this is unusual? I'll give you the answer next week! Can you write an equally baffling logic puzzle for someone else to do?

- Silly joke:

Have you got any silly jokes??

- Marvellous Maths

This week we would have been looking at data, specifically line graphs. Check this out for more info: <https://www.mathsisfun.com/data/line-graphs.html>

Could you have a go at learning some facts about something you're interested in or practise a skill (keepy-uppies?!) and recording your info in a line graph over the week? Or time yourself doing something (20 press ups?!) and see if you improve each day? If you have time, try and answer the questions at the bottom of the page.
