

18<sup>th</sup> May 2020

Hello again Uluru!

It has been wonderful to see all of your lovely work and to hear about what you have been doing. If you haven't managed to email your work in yet, please do if you are able - we'd love to see it! We hope you enjoyed VE Day last week and took some time to find out what happened those 75 years ago.

This week we have been on the look-out for news stories that are not related to Coronavirus and found something interesting - a **grey wolf** has been spotted in Normandy, **northern France** for the first time in **100 years!** Many years ago, wolves used to roam the whole of France but they were **hunted by humans** until they

became **extinct** there. Over the past 30 years, however, they have crossed the Alps from Italy and begun to **inhabit** France once more. Can you find out more about wolves and create a cool fact file or poster all about these incredible animals? Do you remember those wonderful double page spreads you created on Athens and Sparta for history? Why not create your fact file in that style with **illustrations, question flaps** and of course lots of **fascinating facts!**

Here are some questions to guide your research:

1. Wolves are **mammals**. What features do wolves have that make them mammals?
2. What special **adaptations** do they have?
3. What is their **habitat**?
4. What is their **diet**?
5. How do wolves **communicate**?

Here are some links to help you

<https://www.youtube.com/watch?v=nBjfN6Rgi7k>

[https://www.youtube.com/watch?v=J6tT1NW\\_6CU](https://www.youtube.com/watch?v=J6tT1NW_6CU)

Have fun researching and email us with a picture of your fact file.

We are still missing you all. Take care and we'll hopefully see you soon.

:Mrs Hulin and Mrs Mann ☺

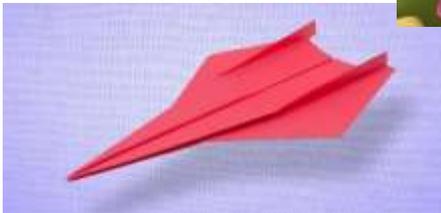

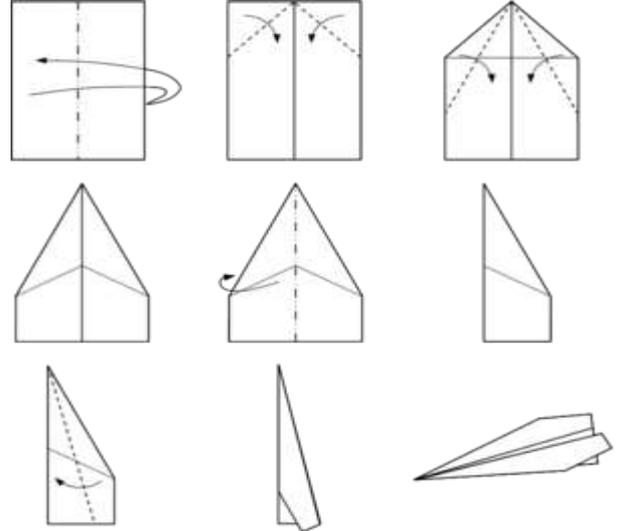

---

Hi, I hope you are all keeping well and safe. I saw a great activity on TV today that was such fun to try out. Simply mix a few drops of food colouring with a touch of water and then 'paint' onto a slice of bread. Once done, you can toast it and eat your creation! I would love to see how creative you can be.

Take care Mrs Frost

## Stem Challenge

Last week, you had a go at creating your own marble run. This week, have a go at creating a **paper aeroplane**. There are loads of ideas online. Try a few different designs and see **which flies the furthest**. What happens if you tape 2 pennies to the middle of your plane? Will it go further? Have a competition with your family. The **world record** for a paper aeroplane is **69.14m!**

## English and Maths Focus

Keep up the excellent effort on **Times Table Rockstars!**

Continue working through the daily lessons on BBC Bitesize. Focus this week particularly on the **maths, English** and **science** activities.

<https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-and-p7-lessons/1>

If you would like some further maths practice, check out these 'I See Maths' learning videos.

## Reading Focus

Do you remember when we read *The Explorer*? The author of that book, **Katherine Rundell**, has put together a free online book with contributions from over 100 children's writers called the **Book of Hope**. The book is dedicated to all the doctors, nurses, porters, cleaners and everyone working in hospitals. Try reading one or two of the poems/stories in this book each day. <https://literacytrust.org.uk/family-zone/9-12/book-hopes/>
