

Hello Avebury Class,

I hope that you are all doing well at home and enjoying some quality time with your families. It feels like a long time since we saw those wonderful smiling faces at school but your posts on tapestry are cheering us up, so keep them up. I hope that you enjoyed the story this week, this is going to become a weekly thing so keep an eye out for stories from us on tapestry and YouTube.

This week I have been really busy working from home and I have started a new sign language course which is keeping me very busy! I am really enjoying learning new things 😊 I am still getting out on my bike every day and doing some yoga at home. This week we made a hamper for my neighbour who hasn't been very well, I really enjoyed making it up and seeing her happy. Can you think of a kind gesture that you can do to make someone smile?

Message from Mrs Griffiths:

Hello Avebury Class, I hope you are all well and have had a nice week. I've been looking at all of your Tapestry posts and leaving some messages for you to read with your parents. I was so impressed at all the hard work you've been doing, the self-portraits you have done were all fantastic. Did any of you celebrate VE Day on Friday? I made some scones and cakes and had

afternoon tea with my family. This is my yummy apple cake that I made. Have a lovely week, stay safe.

I hope that you are enjoying the activities that we are setting for you every week and I hope that you continue to enjoy the activities this week. This topic is a really fun one, I love learning about animals and the environment so keep your post coming so I can see what you get up too. 😊 Stay safe and have fun!

Miss O'Sullivan and Mrs Griffiths

Week 3- African Animals in the Savannah

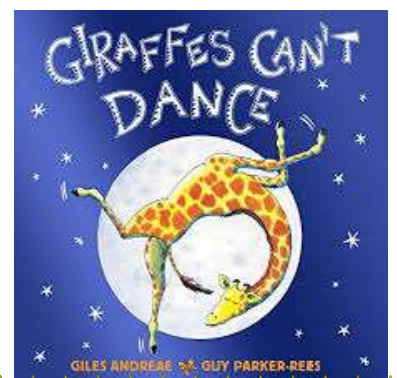

- Write a list of animals that live in Africa. Can you write a sentence about which African animal is your favourite?
My favourite animal is..../I like....
(Challenge: use the word 'because' in your writing and remember to use a full stop at the end of a sentence)

- Can you use some recycling to make a junk model of an animal that lives in Africa? You can use paint/ pencils or pens to decorate the animals. What markings does it have? (e.g stripes, spots, one colour)
- Read/listen to the story of 'Giraffe's Can't Dance' by Giles Andreae. Can you retell the story to a grown up/sibling? Show your best dance move, ask a grown up to record you, and put it on Tapestry for us to see.

Book animation available here:

SPECIAL TASK

This week, we would like you to make a rainbow. You can draw or paint a rainbow, find different coloured objects to make a rainbow – be as creative as you want! When you have made your rainbow, ask a grown up to take a picture of you with it and either upload it to tapestry or send it using the email address on the previous page. We would love everyone in our class to do this task because next week you will get a rainbow surprise...

We are excited to see your creations!
