

Friday 8th May

Happy VE Day everyone!

It was on this day 75 years ago, that Prime Minister Winston Churchill made an announcement on the radio at 3pm that the war in Europe had come to an end, following Germany's surrender the day before. It's hard to imagine what that must have felt like, but the people's faces in the photo certainly give us some idea. Perhaps a combination of utter joy, relief and sadness for those lives lost. I wonder if we will feel something similar when this strange time passes.

How has your week been? As some of you may know I did something for the very first time this week...posted a video on Youtube!! I hope you enjoyed my little challenges...?! I was so proud of myself for actually doing it, but my children pointed out to me that I'd got the most obvious

thing wrong...I had the camera around the wrong way! Oh well...I'm definitely still learning and I don't think Joe Wicks has anything to worry about just yet.

I've also spent more time working on our Geography curriculum this week...it's getting there! I've sent it over to Mrs Mann now for her to have a little look and see what she thinks...it's always good to work together and get another opinion. I've also been having my daily exercise with Monty the Dog, and today I saw this beautiful fern growing in the woods and thought I'd take a photo of it for our Ferndale Family!

I hope you have been enjoying some of the tasks that you've been set, and I hope you enjoy a lovely relaxing few days off over the weekend.

Take care, keep safe and keep being you. ☺

Mrs Humphrey

Tasks to complete (if you want to!)

- Write a letter or email back to me. I'd love to hear from you!

A special 'Thank you so much!' to Olivia for sending me an email! I love hearing what you've been up to!

- Fun fact:

The tallest ever house of cards was built in 2007. It was made from 1,800 sets of playing cards and was 7.87m (25ft, 9in) tall.

Do you have a pack of cards? How high can you make a house of cards?

- Logic Puzzle:

Answer to last week's: He's in a tunnel, or on a bridge

Mission to Mars: A rocket blasts off for Mars. By the end of its first week in space, the rocket has left the Earth far behind and is getting faster all the time. In fact, its distance from Earth doubles each week. If the rocket reaches Mars in week 12, in which week was it halfway there?

- a) Week 2 b) Week 6 c) Week 11

- Silly joke:

Why did the student get upset when her teacher called her average?

It was a 'mean' thing to say!

Have you got any silly jokes??

- Marvellous Maths

This week we would have been finishing off data by looking at the mean, and recapping graphs and interpreting tables of data.

Check this out for more info on the mean: <https://www.mathsisfun.com/mean.html>

And here for revision: <https://www.bbc.co.uk/bitesize/topics/zqgrd2p>
