

Dear Loch Ness class!

We hope you have all had a good week. It has been lovely to see the sun again. We have been decorating our homes ready for the VE celebrations tomorrow. It would have been something we would have done in school, to commemorate 75 years since the end of World War 2 in Europe. We will be watching the famous speech by Winston Churchill, eating scones and joining in with the sing-a-long to the song 'We'll meet again'. Let us know how you celebrate. Perhaps you drew a picture or made some bunting to decorate your house. We have absolutely loved seeing all the learning you have done at home and hearing about the other fun things you have been doing, so please keep the emails coming. We still miss seeing you so much and think about you every day.

How are you getting on with your science task? Have you managed to grow or study a plant? Has it grown at all? How many leaves does it have? Did you manage to label the parts of a plant? Keep sending in the photos and drawings.

Here are some more ideas and tasks to help you keep learning at home.

Art Challenge

This term we would have looked at the works of the famous artist L. S. Lowry. You can find out some information and facts about him on the following website links. I would love it if you could research Lowry and then draw a picture in the same style. Once complete it would be great if you could email your pictures to me.

Below is what we would have been doing in Maths and English this week. It would be great if you wanted to have a go at them.

Maths

This week we have revisited some of our previous learning, so I would like you to think about the following:

Challenges

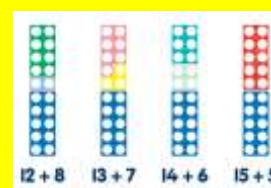

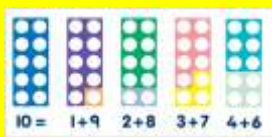

Number Bonds

Do you know your number bonds to 10? When you are confident with number bonds to 10, practise your number bonds to 20. The following might help you.

<https://whiterosemaths.com/homelearning/year-1/>

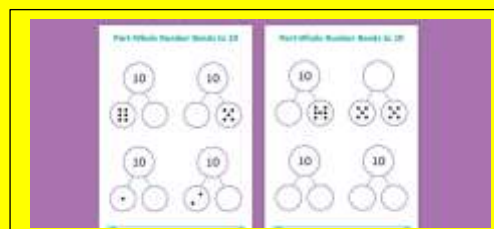

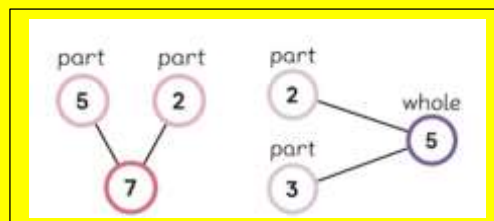

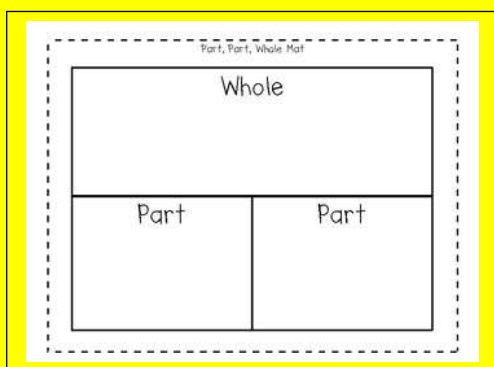

<http://www.ictgames.com/saveTheWhale/> (Number Bonds to 10)

https://www.mathplayground.com/number_bonds_20.html (Number Bonds to 20)

Whole Part Numbers

Do you remember doing these?

Can you have a go at working some whole and part numbers out. Practise first with numbers to 10 or 20 and as you get more confident increase the size of the number. If the weather is good you could practise outside with objects or even use chalk and draw your diagrams. Good luck!

English and History

Continuing our learning about the Kingdom of Brunel, we would have looked at Brunel's ship the SS Great Britain, also known as 'the ship that changed the world'.

Challenge

Draw a picture of the SS Great Britain and label it. Can you find out why it is also known as 'the ship that changed the world'?

The following websites will help you:

<http://www.ssgreatbritain.org/brunel-institute/learning/stuff-do-home>

Virtual tour of the ship_ - <https://www.ssgreatbritain.org/your-visit/virtual-tour-ss-great-britain>

<https://primaryfacts.com/6856/ss-great-britain-facts-and-information/>

<http://www.history-for-kids.com/ss-great-britain.html>

Phonics and Reading

I have set you all as players on 'Teach your Monster to Read'. All you need to use is your first name and the following information depending if you are logging in through a Browser or if you have downloaded the App. You will not need a password, if you use the log in details below.

It a website/app on which you can design a monster and go on an 'adventure' to learn sounds and gain 'prizes'. It also teaches tricky words and allows you to practise reading decodable words/short sentences.

It is free on the website and also on the app due to COVID-19 (normally you need to pay for the app). This is how you log in:

Logging In (for players)

Browser: Children must use <http://www.teachyourmonstertoread.com/u/5721821>

App: When logging in, set ★ (star code) to 5721821

Remember to try to read to an adult or older brother or sister each day. It doesn't have to be a story book. It could be a leaflet or online recipe.

A reminder of the websites given to your last week to inspire reading.
