

# **Skittle Eating Fraction**

## **Recognition Activity**

1. Count the skittles and list the fraction of each colour (remember the number of skittles is the denominator and the number of each colour is the numerator for each colour).

**Eat the orange skittle!!**

2. Now count the skittles and list the fraction of the remaining colours into your book.

**Eat the green skittles!!**

3. Now count the skittles and list the fractions of the remaining colours into your book.

**Eat the yellow skittles!!**

4. Now list the final fraction into your book.

**Eat the red skittles!!**

That's it!! There are no more fractions because you have eaten them all!!
