

# Medium Term Planning

Year Group FS2 Term 5

## Purpose/ Life skills

How to protect our bees. Create posters to share to wider audience.

Sorting materials for recycling – properties of materials

Pay it forward project – Can little children do one small thing to help protect the Earth? What do you think adults should do?

## Language Enriched

Understand language conservation, protect, endangered

Recycle, upcycle

Pollution, pollinate, safe, clean, harm

Group talk then present how to save the planet

## Topic

### How Do We Help Save The Planet?

#### Key Texts

These Bees Count

The Honey Bee Man

Recycling

Micheal Recycle

Recycle and Reuse

What a Waste!

Helping to save our planet

Little Panda Emily Saves the Planet

A Whale's Tale (Video)

## First Hand Experiences

Extract honey from honeycomb trays to collect in jars.

Make food items with honey in e.g. sandwiches, cereal. Taste different food with honey in/

Zoo visit – Learn about conservation

Planting fruit and veg at school and caring for it,

## Deeper Knowledge

Minibeast – understanding that minibeasts have an important job in our world e.g. bees and pollination, insects control pests and help the soil to be healthy, helps keep water and ponds clean.

Upcycling recycled materials into something else

How could humans help save the planet/animals?
