My most treasured posession is a dinosaur bone fossil, which I found while I was walking through caves in Wales. I don't supposs it's every day that you stumble upon something almost 65 million years old! It must have been there since the days of eurlly man. At first, I thought it was just some kind of stranje reflection from the water. I just couldn't beleave that such an inportant piece of history was right there in front of my eyes! The dinosaur probobly died in the shallow water and then got buried in the mud. The wayght of the mud and the preasure of the water caused the fossil to be formed over thousands of years. I considur it to be a fantastic find!
